**WE WANT OUR CHILDREN TO BE HAPPY
AND CONFIDENT ADULTS WITH GOOD VALUES!**

Dear Sanskriti Family Members,

I take great pleasure in sharing with you that our Board exam results for 2017-18 have once again been excellent. We always measure ourselves by the performance of the entire batch, and are very happy to share with you that more than 35% of the entire batch scored above 90% aggregate, and the overall performance of Sanskriti students is once again unparalleled in all of Pune for the fifth year in a row.

This is only possible due to the combined efforts and hard work of our students, teachers and parents who have worked with full faith and partnership over many years together. I also take this opportunity to share with you that as an integral part of the Sanskriti culture, we firmly believe that marks and academic performance is just one of the many parameters we want our children to succeed in.

As a system in Sanskriti, we celebrate the achievements not just of our academically gifted students but of all students who are trying their best to discover their talent and potential in any sphere (sports, extracurricular or other).

Most importantly, we want our children to be happy and grow up as confident young adults with good values. This is a multi year journey, and as a school we will keep working hard to lovingly and patiently inculcate these values in our children.

Warm regards

State-level table tennis player scores over 91 per cent

UNLIKE MOST students who give up their hobbies and sports activities while preparing for board exams, city boy Aryan Panse participated in more than 10 table tennis competitions last year. And despite that, Panse, a student of Bhugaon's Sanskriti School, scored 91.4 per cent in the CBSE Class X exam, whose results were declared on Tuesday.

Currently ranked no. 13 in the state, the table tennis player has been a regular at national and state-level championships for years. Last year, when he participated in 10 state and district-level championships, Panse managed to bag a bronze at the state-level championships held at Balewadi in October. In the same month, he played again at a state-level championship in Thane and reached the quarter-finals of the event.

"Next year is important to me as I will be playing in the under-18 bracket. I want to get back to playing nationals as I really want to play table tennis professionally later in life. The sport has given me a lot, so I want to give back something," said Panse, who hopes to pursue Commerce in Class XI. His reason for doing so is simple: "I think it will take less time to study and I can devote most of my time to sports".
